DRUCE, No. 8 WHARF, late Paradise-wharf, Chelsea.

TO THE TRADE.—Parties desirous of delivering Timber Deals, Stone, Bricks, or any other goods, in the districts of Chelsea, Brompton, Fulham, Kensington, &c. &c., will find great facilities of Wharfage, Crane age, or Delivery, by applying as above. A weigh-bridge and drawdock.—N.B. Depôt for Glass Pantiles.

TO BUILDERS, CONTRACTORS, &c.

GREY STONE LIME of the best quality will be delivered alongside any wharf in London at 7s. per yard of thirteen bushels.—Parties can be accommodated with a moiety of a freight.—Apply to CHARLES PORMBY, Esq. Halling, near Rochester.

CHEAP ROMAN CEMENT is sold in Casks that will not contain Five Bushels, even by some manufacturers of a very respectable name. Consumers should see that the standard size cask is 30 inches long by 17 across the head, outside measure. Any workman with a rule in his pocket can ascertain this.

ATKINSON'S CEMENT. — WILLIAM WOOD, Jun., Manufacturer of Roman, Portland, and Bath Cement, Blue and White Lias Lime Works, CHURCH STREET, ROTHERHITHE, London. Sole Consignee of Atkinson's Cement.

BATHSIDE CEMENT WORKS, established to supply a genuine quality of ROMAN CEMENT, THOS. JNO. CRAMPTON, Sen., Patentee, 3, Laurence Pountney Hill, Cannon-street, London. Depôts.—Three Cranes Wharf, 69, Upper Thames-street; 98, George's Wharf, Upper Belgrave place, Pimlico; Burton's Wharf, Commercial road, Lambeth; Railway Wharf, Greenwich.

N.B. Plaster of Paris and Bricks at reasonable prices.

PORTLAND CEMENT is the only Cement for external purposes which requires no painting or colouring, does not vegetate or turn green in damp situations, and is not acted upon by frost.

Being perfectly hydraulic, it is the best cement to use for building and lining reservoirs, baths, cisterns, fishponds, &c. &c.

Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S PATENT MARBLE CEMENT forms an exceedingly hard and indestructible Stucco, which may either be prepared for painting or finished in imitation of stone, by the addition of Portland or other stone dust.

It is a cheap and efficient substitute in place of wood for skirting, architrave, and other mouldings, in its application for which purpose it checks the progress of Fire and the attacks of Vermin.

Patentees and sole Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster, and Bristol-street, Liverpool.

TO ENGINEERS, CONTRACTORS, BUILDERS, &c.

JAMES WESTON having completed extensive alterations and erected new and powerful machinery, at his CEMENT AND PLASTER WORKS, MILL-WALL, POPLAR enables him to execute orders on an enlarged scale. He thereby solicits the favours of Engineers, Builders, and others, interested in works, who may rely on the articles being of the best manufactury, and prompt attention to all orders.

Manufacturer of Lias and Mastic Cements, St. Andrew's Wharf, Earl-street, Blackfriars.

GREAVES'S LIAS LIME and CEMENT, RUTTY and VEREY, 3, South Wharf, Paddington.

LIAS LIME, as Mortar, is especially adapted for sewers, dock-walls, hydraulic, railway, and other works; its adhesive qualities being supported by Roman Cement.

As CONCRETE, it has more power than any other Cement or Lime, as it forms a solid mass as firm as a rock under water—using one bushel of lime to eight of gravel.

LIAS CEMENT is easily worked of a beautiful stone colour similar to Portland stone, does not vegetate or crack, hardens by exposure to the atmosphere, and is well adapted for modelling and casting.

Metallic Sand on hand.

MARTIN'S FIRE-PROOF AND ORNAMENTAL CEMENT.

CAUTION.—Messrs. STEVENS and SON, Patentees, beg to caution their friends and the trade generally against confounding this invaluable Cement with others, erroneously said to be of the same description. It and S. plaster themselves that MARTIN'S CEMENT is totally dissimilar in composition and manufacture from every other, and being a neutral compound, is not only free from chemical agency upon any substance with which it may come in contact, but completely resists the action of the strongest acids. They feel it a duty to direct attention to the following properties, which it is thereby presumed:—

1. It rapidly acquires the hardness of stone.

2. Unlike other internal cements, its hardness is uniform throughout the entire thickness.

3. Its surface (which may be made equal to that of the finest marble) NEVER THROWS OUT ANY SALT, and will receive paint in four days, without pumice, when put upon dry work.

It is peculiarly adapted as an internal stucco for walls, skirtings, architraves, mouldings, and enrichments of all kinds, to all of which purposes it has been extensively applied by Mr. Thomas Cubitt, on the Grosvenor estate, &c.

For the above purposes, it possesses great advantages over woods being more economical and durable, resisting fire, damp, and vermin.

For the floors of halls and fire-proof warehouses, its lightness, durability, and uniform surface give it an immense advantage over stone, being, at the same time much more economical. The most satisfactory references can be given. To be had of the Patentees, Plaster of Paris and Cement Manufacturers, 106, DUKE LANE.

Agent for Liverpool and Manchester, Mr. R. PART, 28, Canning-place, Liverpool.

TO ARCHITECTS, ENGINEERS, CONTRACTORS, BUILDERS, MASONS, AND PLASTERERS, MERCHANTS, SHIPPERS, AND THE PUBLIC IN GENERAL.

JOHN'S and CO.'S PATENT STUCCO CEMENT.—The following are the positive advantages possessed by this Invention over every Cement hitherto introduced:—

It will effectually resist damp. It will never vegetate, nor turn green, nor otherwise discolour. It will never crack, blister, nor peel off. It will form a complete stone casing to any building covered with it. It so closely resembles Stone that it is impossible to detect it. It never requires either to be painted or coloured. It will keep fresh and good in the cask, in any Climate, for any number of years. It is the only Cement that can be depended upon for export. It is the only Cement that can be used with confidence by the trowelle. It may be used in the hottest or coldest Climates at any season. It will adhere to any substance, even to Wood, Iron, or Glass. It will carry a larger Proportion of Sand than any other Cement. It matures by age, and becomes perfect when other Cements begin to perish. It may be worked through the Winter, as frost has no effect upon it. It may be used on the Inner Walls of new Houses, which may be papered over or painted directly. Roofs laid or pointed with this Cement will remain as managed by the several Stories. Any Mason or Bricklayer may apply it, the Instructions for the same being very clear and distinct. The first cost of this material does not exceed that of the cheapest Cement now in use; but with all the above named extraordinary and valuable advantages, nothing can cope with it on points of economy.

Architects and Builders who have used this Cement have declared that it requires only to be known to be universally preferred.

Specimens may be seen, and a Prospectus fully describing the Cement, and the mode of application, together with a volume of Testimonials from every part of the Kingdom, may be obtained on application at the office of "The Builder," and of MANN and CO., MILE AGENTS for the Patentees, 39, Mark-lane, Queen-street, Cheapside, London; of whom also may be had,

JOHN'S and CO.'S PATENT STONE-COLOUR STUCCO PAINT, especially intended for Painting over exterior Walls of Houses that have been covered with Cement or other Cements, and which have become dirty and discoloured. It is in every way better suited for this purpose than White Lead Paint, which will presently come off in flakes, being in direct chemical opposition with Cement; whereas Mr. JOHN'S and CO.'S PATENT PAINT has not an affinity for Cement, blends itself with it, stoppens the suction, thereby rendering the wall proof against weather, and is the finest producing a pure stone-like effect, procurable by no other Paint whatever. It is cheap in its application, and may be used by any Painter, in any climate, even in the most exposed Marine situations.

TO BUILDERS, MASONS, AND OTHERS.

FOR SALE, 50,000 feet sup. of New Common-tooled York Paving, at 6d. per 100 feet sup., on the Wharf, or delivered within three miles at 8d. per 100 feet; also a quantity of thin-tooled Paving at 4d. per 100 feet. Terms, Cash on Delivery.—KRAFT and SEWELL, Albert Wharf, New Wharf Road, Battle Bridge.

MOSAIC PAVEMENTS. — SINGER'S PATENT for Churches, Halls, Conservatories, Verandahs, Banks, &c. This most beautiful and durable of all ornamental Pavements has been lately much improved in execution and reduced in price. Specimens, adapted to every style of Architecture, may be seen at the Works of the sole Patentee, ALFRED SINGER, Vauxhall Pottery, Foot of Vauxhall bridge, Surrey side.

PAVING, 2s. 9d. PER SQUARE YARD.

Basements, Foot-walks, Malt-houses, Corn Stores, Floors of Warehouses, and every description of Pavement laid down at the above low price, and the work guaranteed.—Apply to JOHN PILKINGTON, POLONCEAU'S BITUMEN PAVEMENT OFFICE, 14, WHARF-ROAD, CITY-ROAD.—N.B. Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

PIMLICO MARBLE AND STONE WORKS, BELGRAVE WHARF, PIMLICO-ROAD.

SAMUEL CUNDY begs to inform Architects and others, that GOTHIC WINDOWS, and every other branch of stone-work, &c., are executed at the cheapest possible rate, and packed for the country ready for fixing or fixed, enabling ARCHITECTS to have the most delicate TRACERY for CHURCHES, or other buildings in the PROVINCES, executed under their immediate inspection in TOWN.

BUILDERS and MASONS can have every description of Stone in the London Market, either in the rough block, or cut to sizes from the saw, or prepared ready for fixing or fixed, avoiding either waste in the goods or carriage.

Bath Caen Stone 10s. per ton upwards.

THE WORCESTER ENCAUSTIC TILES, in all their beautiful variety, may be inspected, in addition to the usual extensive stock of Chimney-pieces and FONTS.

Estimates given for building generally.

CAEN SUFFERANCE WHARF, ROTHERHITHE.

LUARD and BEEDHAM beg to inform Architects, Surveyors, Builders, and others, that they have removed from Norway Wharf, Greenwich, the whole of their Caen Stone business, to the above extensive premises, where a large Stock will be kept up by continual fresh arrivals from their quarries at Allemagne. Orders received at the wharf, and further particulars may be obtained of Mr. GEORGE GATES, 13, Southwark-square, Borough, London.

Orders shipped direct from Caen to any port.

The Waterman Steamboats call at Lavender-pier, adjoining Caen Wharf.

ANSTON QUARRIES.—Messrs. Wm. WRIGHT and Co. beg to inform Architects, Engineers, Builders, Stone Merchants, and others, that they have opened QUARRIES in the land adjoining those of Messrs. Gruse and Peto, and are ready to supply any quantity of stone on the shortest notice.

This VALUABLE STONE, so celebrated for its durability, colour, and texture, is well known, having been selected in preference to all other in England, by the Commissioners of Woods and Forests for building the New Houses of Parliament. Facilities are at hand for forwarding the Stone to any part of the Kingdom.

Application to be made to Messrs. Wm. WRIGHT and Co., Anston, near Sheffield, Nottinghamshire.

SLATE SLABS.—The Finest Slabs produced in WALES, of amazing strength, pure in texture, and free from spots, may be had of Mr. MAGNUS, at the PIMLICO SLATE WORKS, Upper Belgrave-place, planed both faces at the price that inferior Slabs in the rough self (needless are currently selling. These reduced prices are also subject to a very large trade discount. These slabs have been extensively used at Buckingham Palace, Strathfieldsaye, the Royal Naval and Military Schools, Deptford, the Model Prison, Pentonville, the London-square Baths and Washhouses, on most of the Railways, and are specified for by the most eminent architects. Whole cargoes supplied direct from Mr. Magnus's Works in Wales, planed 1-4th faces, at very low rates. Slate Tanks, Fittings for Bathing, Larders and Wine Cellars, Landings, Cantilevers, Chimney Pieces, &c. &c.

By Her Majesty's Royal Letters Patent.

GLASS VENTILATORS FOR WINDOWS.

BAILLIE'S Patent Transparent Slide Valve VENTILATORS.—To be had of EDWARD BAILLIE, Glass Painter and Stainer, 13, Cumberland Market, Regent's-park, London. Their extensive and successful application to Public Offices, Bed-rooms, and the cure of Smoky Chimneys, prove their great utility. Forty per cent. from the original Tariff.

DR. ARNOTT'S CHIMNEY VENTILATOR.—F. EDWARDS, Sole Maker to her Majesty, 20, Poland-street, Oxford-street, begs to call the attention of Architects, Builders, Gas-fitters, and the Public to the truly invaluable advantages to be derived from the use of Dr. Arnott's Valve for the Ventilation of rooms of every description.—Prices from 7s. 6d. to 30s. each. A prospectus, containing full particulars, to be had on application.

SMOKY CHIMNEYS—NO CURE, NO PAY.

Twenty-five years' extensive experience in all the branches of a stove manufacturing business, and the cure of smoky chimneys of every description, fully justifies F. E. in stating that he can undertake the cure of smoky chimneys on the equitable terms of no cure no pay.

WALLIS'S PATENT LIQUID WOOD KNOTTING.—This newly-discovered Liquid Composition, which Messrs. Geo. and Thos. Wallis have the satisfaction of introducing to the Trade, possesses the important qualification of effectually stopping Knots in Wood, however bad, and preventing them coming through and disfiguring the paint above.

Many substances have been used and much time spent in endeavouring to find a cure for a bad Knot, but hitherto without success. The Public will, therefore, feel much pleasure in offering to the public an article so long and anxiously called for.

In the application, skill is not required; it is put on to the work with a brush like common paint, can be used in all climates and situations, and does not require heat.

Sold wholesale and retail, by Messrs. G. and T. Wallis, Varnish, Japan, and Colour Manufacturers, No. 64, Long Acre.

TODD'S PATENT PROTOXIDE PAINT manufactured by CHAS. FRANCIS and SONS, CEMENT WORKS, NINE ELMS, LONDON.

The properties of this Paint are peculiar for preventing iron from oxidation, wood from decay, and masonry from damp; it neither cracks nor blisters with the hottest sun, and is therefore most valuable for Railways, Boilers, Steam, Gas, and Water-pipes; Hot-houses, Forcing-houses, and for Shipping. Its adhesion is so great to iron and wood, that the hardest friction will scarcely remove it. It prevents vegetation on stuccoed buildings, and is not affected by spray of sea-water.

PROTOXIDE PAINT is sold ground in oil, and, compared with white-lead, its property of concealing is as 75 to 50, so that one hundred weight is equal to one and a half of lead. It works well under the brush, and forms with oil an unctuous and cohesive mixture. If blended with other paints it has a softer tone than white-lead. For houses painted during occupation, it is most preferable, being perfectly innocuous.

LONDON and PROVINCIAL JOINT STOCK LIFE INSURANCE COMPANY.—The Directors invite the Public generally, also Building Societies and Borrowers, through them or from other parties, to examine the peculiar system and striking advantages offered by this Office.

Every description of LIFE ASSURANCE, INVESTMENT, and LOAN Business transacted. LOW RATES of PREMIUM, and THREE-FOURTHS of PROFITS divided.—For Prospectuses, &c. apply to JOHN MASSON, Secretary.

Offices, No. 30, Nicholas-lane, Lombard-street.

PREPARED FLOORING BOARDS.

ALWAYS on SALE, a Large Assortment of DRY PREPARED FLOORING BOARDS, and MATCHED BOARDING of all sorts, planed to a parallel width and thickness, from 1 inch to 1½ inch thick.

TIMBER, DEALS, OAK PLANKS, SCANTLINGS, SASH SILLS, &c.

Apply at W. CLEAVE'S Timber Yard, Wilton-road, Pimlico (late C. Moore and Sons).

ALFRED ROSLING begs to inform the Trade and consumers generally, that he keeps constantly in stock, a large and very general assortment of Prepared Floor Boards, and Matched Boarding, planed to a parallel breadth and thickness, and fit for immediate use; also a variety of machine prepared Mouldings, which are finished with great accuracy and attention to quality of workmanship.—Southwark Bridge Wharf, Bankside, and Old Barge Wharf, Upper Ground-street, Blackfriars.

T. ADAMS (from Byron and Co.), late S. Dare, MAHOGANY and TIMBER MERCHANT, Bermondsey New Road, near the Bricklayers' Arms. SEASONED FLOORING, MATCH-BOARDING FIT FOR IMMEDIATE USE, and MOULDINGS prepared by machinery. Cut Deals and Scantling of every dimension. Mahogany, Cedar, Rosewood, Wainscot, Elm, Beech, Oak, &c., in planks, boards, veneers, and logs; Pantile, Oak, and Fir Laths; Wheelwrights' Goods. All sawn and prepared goods delivered free of expense (except timber). Sawing charged at mill prices. Very extensive Drying Sheds.

MUIR'S PATENT PLANING MACHINE.

SAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any Size, PLANK, DEALS, and BATTENS, &c. Sawn on the most approved principle. Boards, &c. Planed, Matched, and Tongued, by Muir's Patent Machinery. The Mills have all the advantages of navigation and water-carriage, being connected with the Thames by the Grosvenor Canal. Goods fetched from the docks and carted home free of charge.

Address to HENRY SOUTHAM, New Mills, Gillingham-street, Pimlico.

N.B. Estimates given for Sawing and Planing.

TIMBER AND DEAL SAWING AND PLANING MILLS, Belvedere-road, Lambeth, near Waterloo-bridge.

THE GENERAL WOOD CUTTING COMPANY continue to receive the most satisfactory assurances from all who have given their improved machinery a trial, that there is no method of preparing floor boards, matched linings, skirtings, &c., by which economy, dispatch, and economy of material are so certainly obtained. In shooting, or grooving and tongueing a board (although curved), the machine follows the edge, removing no more than the skin of the wood, and by the use of a peculiar saw for deep cutting, the board comes off with a perfect surface, thus obviating the necessity of reducing its thickness in order to plane out the hollows. The Company being neither builders nor timber merchants, unconnected with any trade, but that of sawing and planing, and depending solely on the public for a moderate interest on their capital, are determined, by an assiduous attention to the interests of their customers, both to merit a continuance of their support.

WOOD and MARBLE SAWING MILLS, Commercial-road, Pimlico.—PREPARED FLOORING. J. HOLMES begs to call the attention of Consumers to the extensive stock of Prepared Flooring at the above Mills, thoroughly dry, and fit for immediate use, and at prices that must give satisfaction. Also Dry Mahogany, Honduras, and Spanish, for Handrails, &c. And about 300 stacks of well seasoned Wainscot, of the finest quality, inch thick, and upwards.

MARBLE in SLABS or BLOCKS.—The largest stock in London of rare statuary, and other Marbles in Slabs of various thicknesses and sizes to select from, sawn perfectly smooth and even. Blue Hill Slab in any quantity, also Portland Paving, Landing, and Sinks. York and Portland Paving, and Slate rubbed with dispatch.

Marble, Timber, Deals, &c., for Sawing, fetched from the docks, and delivered on the shortest notice.

SPACIOUS DRYING ROOMS, for Seasoning Floor Boards, &c. Sawing estimates for, if required.

N.B. The strictest attention shall be given to all orders.—Apply to J. HOLMES, on the Premises.

SIR W. BURNETT'S PATENT for preventing the Decay of Timber, Canvas, and of all Vegetable and Animal Substances.

This process has long been in extensive use in her Majesty's Dockyards.—Vide Parliamentary Debate, April 13, 1847. It hardens and improves the texture of wood without injuring its elasticity, and renders it much less inflammable; and entirely so when prepared expressly for the purpose.

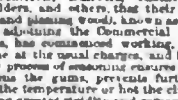
Licences granted to noblemen and gentlemen to use the preparation, and to contractors and others for the purposes of trade.

Hydraulic Apparatus and Tanks at the principal stations, Millwall, Poplar. Square-rigged vessels can lay alongside the premises.

When the quantity of timber to be prepared is large, special contracts will be entered into on advantageous terms.

A liberal trade discount allowed to Builders, Shipbuilders, and others interested in business.

Further information may be obtained and specimens seen on application to the Secretary, at the Offices, 53, King William-street, London-bridge.



WOOD THOROUGHLY SEASONED IN 24 HOURS INSTEAD OF 7 YEARS BY DAVISON AND SYMINGTON'S PATENTED PROCESS.

THE Patent Desiccating Company beg to inform Architects, Builders, Cabinet Makers, Coach Builders, Ship Builders, and others, that their establishment for seasoning, sawing, and planing wood, known as the Grand Surrey Mills, immediately adjoining the Commercial and East Country Docks, Rotherhithe, has commenced working. The sawing and planing will be done at the usual charges, and in the best possible manner. The new process of seasoning ensures the entire removal of moisture, hardens the gums, prevents further shrinkage no matter how warm the temperature or hot the climate), strengthens the fibre, thus giving greater rigidity and compactness to the material, all of essential importance for boards, doors, shutters, and similar work. For licences to work the patent, scale of prices, or any further information, address, post paid, or apply to W. H. TANQUERAY, Secretary, at the temporary offices of the Company, 26, New Broad-street, City.

N.B.—It has been satisfactorily ascertained that what are termed two-years seasoned flooring boards, contain from 8 to 10 per cent. of moisture, causing a shrinkage of one-eighth of an inch in the width of the board, which is obviated by the new process.

TO ARCHITECTS, SHIP JOINERS, CABINET MAKERS, &c., REQUIRING FINE WOOD.

SELLING OFF, at reduced prices, in consequence of a Dissolution of Partnership, at the Mahogany-yard, in Little Windmill-street, Haymarket, a choice collection of Fine MAHOGANY, Rosewood, Satinwood, Maple, &c., in planks of all thicknesses and veneers, also upwards of 30,000 feet wainscot planks, running from 1½ inch to 3 inches thick. The whole stock perfectly dry, and fit for use, requiring to be disposed of forthwith.

GREASE! GREASE! GREASE!—JAMES THOMAS FITT begs to inform Railway Contractors, that he is supplying Patent Grease at the following prices:—White Grease, 1lb. per cwt.; Black Grease, 2s. 6d. per cwt. 10 per cent. discount for cash.

Samples sent by addressing to J. T. FITT, Syrup Mead, Bermondsey New-road, London.
